DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose nor reasonably suggest the interactive television system and method as disclosed in claims 2, 9 and 16, with a gateway screen displayed by the TV at least upon initial energization of the TV, the gateway screen having at least one TV content panel and at least one Internet content panel displaying content related to the content on the television content panel. In particular, the prior art of record fails to teach that the gateway screen is a last screen displayed in response to receiving a signal to deenergize the interactive television. While a currently watched screen may be the last displayed to a user when a user deenergizes the television, this is not the last screen displayed in response to receiving a signal to deenergize the interactive television as required by the claims.

Claims 2-3, 5-10, 12-18, and 20-27 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
